

# VULCAN

The **Future** of Weeding, Now.

Powerful Precision Weeding That Saves You Time and Money

## The Vulcan by the Numbers

Save hours in the field and cut labor costs with Vulcan's efficient, automated precision weeding.

- ▶ **Weeds 25+ Acres / Day:** High-speed, precision performance.
- ▶ **Covers 3-4+ Acres / Hour:** Efficient weeding with every pass.
- ▶ **Operates at 1.5-4 MPH:** Minimal soil disturbance, maximum results.
- ▶ **Supports 45+ Crop Types:** Versatile for diverse farming needs.
- ▶ **24/7 Edge Learning:** Smart updates for continuous improvement.
- ▶ **Millimeter Precision:** Protects crops while removing the smallest weeds.

### Unmatched Efficiency

High-speed weed removal delivers superior field cleaning while maximizing productivity. Built for extended use, ensuring consistent results.

### Exceptional Labor Savings

Replaces traditional hand crews by automating weeding tasks traditionally performed by large crews, drastically reducing labor costs, with minimal training required. Thanks to its fully automated weeding experience, it operates independently without oversight.

### Superior Precision

AI-driven computer vision weed control identifies and eliminates weeds with pinpoint accuracy - even those invisible to the naked eye - while protecting the crop. Weed density or size does not impact performance or speed, ensuring consistent results in all conditions.

### Unparalleled Versatility

Multi-crop functionality to ensure year-round utility, and adaptability. The flexible 3-bed architecture enables easy servicing, upgradability and configuration process.

# TRUSTED BY GROWERS

“This season, we ran two Vulcans over 3,000 acres. We covered 25 acres in a single shift. At one point, we hit 100 acres in a single week.”

–Joe Nino  
Tech Coordinator,  
Taylor Farms

“It's one thing to create machinery in a shop, but can it actually perform and deliver in the field? Vulcan really is a game-changer”

–Colby Pereira  
COO, Braga Fresh

Vulcan Model	Bed Configurations	Crop Mix
Vulcan V380	3-bed 80-84"	Lettuces & Brassicas*
Vulcan T380	3-bed 80"	Tomatoes
Vulcan V368	3-bed 68"	Lettuces & Brassicas*
Vulcan V440	4-bed 40" Compatible with John Deere 5 Series	Lettuces & Brassicas*

\* Also compatible with: Artichoke, Basil, Beets, Black Kale, Bok Choy, Broccollette, Broccoli, Cauliflower, Celery, Cilantro, Collards, Corn, Dill, Fennel, Frisee, Green/Red Butter Lettuce, Green/Red Cabbage, Chards, Green/Red/Black Kale, Green/Red Leaf Lettuce, Head Lettuce, Kohlrabi, Leek, Melon, Mustards, Napa/Savoy Cabbage, Parsley, Radicchio, Romaine Lettuce, Tomatoes, Watermelon

## Grow Smarter Every Season with the FarmWise Vulcan

Farming for the future starts today with the Vulcan precision weeder—AI weeding technology that evolves alongside your operation. Powered by advanced AI and robotics, the Vulcan continuously learns and improves with every pass, delivering smarter, faster, and more efficient weeding.

Designed for adaptability, the Vulcan machine allows for quick and easy upgrades, while its advanced software ensures your investment stays ahead of the curve. With a fast-paced deployment of performance-enhancing features, you'll always have access to the latest in precision farming innovation.

**The FarmWise Vulcan: Built to grow with you and your operation, season after season.**

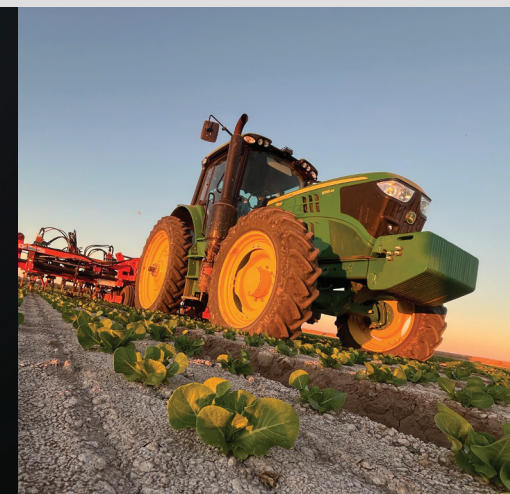

### Try Before You Buy • 2025 Vulcan Trial Program

**1-Week Free Trial\*** : Experience the Vulcan in your fields, on your terms—no charge, no commitment.

**Extended Trial Options:** Test the Vulcan for 100, 250, or 500 acres at a fixed price per acre. Credits apply to your purchase, and a trained driver is available upon request.

**Flexible Financing:** FarmWise partners with **John Deere Financing** and **AgDirect** to offer competitive, farm-friendly financing options.
